

Potted Plant Craft

While learning about the life cycle of a plant, our students will have the opportunity to grow a plant themselves.

We will be painting/decorating our plant pots and then planting a sunflower. Once the sunflower starts to grow the students will then get to take their plant home.

The cost to participate in this craft is \$7.00.

Please return the slip and money on or before Thursday April 6th, 2023.

My student _____ will be participating in the Potted Plant Craft on 04/12/23.

_____ \$7.00 is included or _____ \$7.00 from account.

My student _____ will not be participating in the Potted Plant Craft on 04/12/23.
